

Revolution V

(Your Complete Visitor Management & Card Printer System)

Innovative Visitor Management Card Printer Systems

Revolution V™ & Lobby Track bring you the **CP107Dv**, the worlds #1 visitor management and member tracking card printer system. It allows organisations to compute time and attendance and to trace employees and equipment with detailed individual or group logs. The visitor management functionality includes fast data entry, badge design and badge printing.

With centralised management, online, self-registration and reporting components, **Revolution V™** is easily deployable across entire organisations. Unique to **Revolution V™** is its ability to seamlessly integrate with multiple existing data sources in real time.

Multiple Live Database Connections

- Maintain live connections to multiple databases in real-time
- Connect to and toggle between visitor, employee, membership, contractor or any other database
- One-click connections to popular databases and support for connecting to any ODBC / OLE DB compliant database
- No need to re-enter or import existing data making setup quick and easy
- Use pre-designed data entry forms or create your own using drag and drop tools
- Customise the way data is presented to the end user to fit usability and security requirements
- Get started quickly with the pre-configured database or create a new database using a simple setup wizard
- Lobby Track easily integrates into new or existing environments

The Lobby Track Advantage

Visitor Management

Keep track of all visitors entering your facilities easily with Lobby Track's visitor pass creation and record-keeping capabilities. Create professional visitor passes, pre-register visitors online and run in kiosk mode for efficient self-registration.

Member Management

Lobby Track's flexibility allows you to easily track all members, staff and contractors. Check in personnel by scanning badges and IDs and create logs for each group.

Time & Attendance

Details of each check-in and check-out are logged. Create detailed charts and reports for each employee, contractor or temporary employee; integrate time and attendance report seamlessly with your existing payroll system.

Equipment Tracking

Use your member tracking software to track equipment usage. Create reporting codes for each piece of equipment and maintain logs of all usage and check-out.

Facility Security

Set unique access control policies for each location, individual and entry time. Maintain a watch list of all unwanted visitors and receive instant alerts to any potential security risk.

Professional Card & Badge Design

Design professional photo ID cards and visitor badges using an integrated version of Jolly Technologies card design suite, ID Flow.
